

Day IOWA STATE UNIVERSITY

You're Invited...

To come join the American Institute of Chemical Engineers and many other engineering student organizations at Iowa State University for the inaugural STEM Day event!

When: Saturday, April 9th,
10am-2pm

Where: Beyer Gym at Iowa State University in Ames, IA

What: Student organizations will be running hands-on demonstrations of STEM field principles. Students will have the opportunity to learn concepts, build things, and experiment.

Try to register online at:
aiche.cbe.iastate.edu/events/pltw-events

Science

Participate in several demonstrations exploring physics, chemistry, biology, and more. Build a model neuron with the Biomedical Engineering Society.

Technology

Participate in several demonstrations exploring computer science, electricity, , and more. Learn about video game creation with the Game Development Club.

Engineering

Participate in several demonstrations the various disciplines of engineering. Build a tower, fire catapults, and learn about material properties.

Mathematics

Participate in several demonstrations exploring mathematic concepts. Solve some probability puzzles to earn prizes and become a measurement master.
